Github | Linkedin | Projects

4+ years experience as a Data Analyst and Developer. I am looking forward to applying my skills in the Data Science/ML field. Swift in communication and loves to collaborate. Have experience in data pipeline and structured data analysis

EXPERIENCE

adsify.digital, Data Analyst   NOV 2021 - PRESENT

- *Implemented **dashboards** in **PowerBI** to visualize and track seller KPIs and report the management in case any significant anomaly is detected.*
- *Generate daily reports by implementing **MySQL** scripts for Seller Listing, Shipment Fee, Ads spending, Finance unit metrics, etc. And analyze the data to gather actionable insights.*
- *Automated the process of generating in-depth reports using **Python** to track the seller campaigns advertising attributes based on ASIN and sponsorship type.*

adsify.digital, Python Developer   APR 2020 - OCT 2021

- *Deployed Data Warehouse using **AWS RDS** to gather and store daily reports and metrics from sellers using Amazon **REST** based **SellingPartner-API** and **Ads API.***
- *Implemented **ETL** pipeline in **AWS EC2** using Python **asyncio** & **httpx** to request reports of multiple sellers and transform raw data into a structured format, resulting in an 80% file size reduction*
- *Developed a company-wide web portal using **Flask** and **AWS S3** for generating campaigns, seller audits, and scraping search results from Amazon and deployed the application using **AWS Beanstalk**.*

IHS-Markit Operation Analysis Analyst   AUG 2018 - JAN 2019

- ***Predict** the price of illiquid securities using fixed-income data and keep track of price fluctuations.*
- *Maintaining the health of **yield curves** for GSIBs (Global Systemically Important Banks) and **monitoring** daily market changes.*
- *Keep the yield curves consistent with market changes using various **data cleaning** and filtering techniques.*

SKILLS

Python, PowerBI, Exploratory Data Analysis, Statistical Analysis, Predictive Modelling, Regression Analysis, Machine Learning, A/B Testing, Web Framework, APIs, MySQL, Data Management, Data Warehousing, Linux, ETL Pipeline and Version Control.

EDUCATION

MBA (Finance)   **Jamia Millia Islamia**   AUG 2016 - APR 2018

Relevant Coursework: Risk Modeling, Financial Markets, Quantitative Analysis, Macro-Economics, Brand Marketing

BSc (Computer Application)   **Aligarh Muslim University**   AUG 2012 - APR 2015

Relevant Coursework: Programming, Object Oriented Programming, Database Management Systems, Introductory Statistics, and Probability.

CERTIFICATION

Advanced Data Analytics Professional Certificate, Google 2023

Database Engineer Professional Certificate, Meta 2023 (Ongoing)
